Criteria for Reviewing Equipment and Infrastructure Enhancement Grant (EIEG) Proposals

**COMMITTEE REVIEWER CRITERIA**

Below are the criteria each member of the Equipment and Infrastructure Enhancement Grant (EIEG) Review Committee will use to assist them in (a) critiquing a proposal, (b) providing useful feedback to the PI, and (c) determining an overall score for the proposal.

**Keep in mind that each section of the proposal text should be written in clear, concise language so that reviewers from any discipline will be able to understand what is being stated.**

- **Project / Issue and Goals:**
  - Is the project or issue that the proposed equipment/infrastructure enhancement will address important or significant in the PI and Co-PI(s)’ area(s) of research?
  - Are the goals/objectives of this equipment or infrastructure enhancement clear?
  - Does the equipment already exist on campus?

- **Research Methods/Creative Activities:**
  - Does the addition of the proposed equipment or infrastructure enhancement increase the research capabilities of the multidisciplinary users identified in the proposal?
  - Do the research methods and/or creative activities and the identified multidisciplinary users seem appropriate?

- **Broader Impacts:**
  - Do the intended outcomes of this equipment or infrastructure enhancement have a direct contribution to a new tangible public benefit, beyond its immediate research goals?

- **Funding Information:**
  - Does the explanation of why this equipment or tool has not been previously funded seem reasonable?
  - If applicable, is it likely that the users’ plans and probability assessment for receiving external matching are accurate and achievable?

- **Budget:**
  - Referencing this proposal’s goals and objectives and the type of equipment/infrastructure enhancement/service contract proposed, does the detailed quotation from the vendor seem reasonable?
  - Are the PI’s and Co-PI(s)’ departments contributing cost share?

- **Management of the Equipment:**
  - Does the proposal describe who will be responsible for the extraneous expenses, such as installation, operation, repairs, maintenance, and replacement of the equipment or tool?
  - Are the plans for the maintenance of this equipment or infrastructure enhancement equitable and accessible?
  - Is cost-sharing involved in these expenses?
Impact of Previous EIEG Awards:
- Have the PI and Co-PI(s) used previous EIEG awards as proposed?
- Is the equipment still actively used and properly maintained?

SCORING SCALE

Reviewers should provide a numeric score and comments for each proposal, identifying minor/moderate/major weaknesses specifically to correlate with the chart below.

PROGRAM STAFF CRITERIA

Below are the criteria the CRC Program Staff will use to review each proposal.
